

Christmas Commission

HOTA, Home of the Arts, celebrates and supports Gold Coast based artists by commissioning a seasonal artwork in recognition of the role contemporary art practice plays in everyday life. In its fifth year, HOTA presents the Christmas Commission 2021.

This Christmas season, Nicholas Tossmann has conceived a multi-part text-based artwork to capture a place in time and a time in place.

In a series of six installations, Tossmann's work *Moments* provokes contemplation as a sequence of festive philosophical flashes that span from the HOTA Gallery across the wider Precinct to the Green Bridge.
